## TECHNICAL PARAMETERS

### Waterproof Softshell

| Parameter                                |   |       |
|--|---|-------|
| Composition                              | 1) Polyester 95% / 5% spandex+ 2) TPU 0.012MM + 3) Polyester 100% |       |
| Interweave                               | 3-layer fabric with TPU membrane                                  |       |
| Water resistance, mm/H2O (EN 20811:2004) | ≥ 10 000  |       |
| Vapour permeability g/m2/24H             | ≥ 2 000   |       |
| Weight, gsm                              | 330±5   |       |
| Width cm                                 | 150   |       |
| Tearing strength                         | warp  | weft  |
|  | 35  | 25    |
| Dimensional stability to washing, %      | warp  | weft  |
|  | -0,5%   | -0,8% |
| Content of formaldehyde, microg/g        | ≤30   |       |

### Care labeling
